Experience

UI/UX Onboarding Designer Lead

Flip & Floss | November - December 2025

- Leadership in reducing onboarding complexity by streamlining steps and clarifying first-time user guidance for childhood financial education
- Aligned onboarding patterns with WCAG standards, COPPA guidelines, and inclusive UX best practices

UX Sandbox Game Design Tester (Stealth)

HoYoverse | November 2025 - Present

- Providing structured UX feedback on game creation tools (Unity) for the hit mobile game -- Genshin Impact, gameplay mechanics, and overall user experience to improve sandbox mode before public release
- Applying prototyping and iterative design approaches to refine game concepts and test player interactions

Website Design Manager

Mishawum Choral Society | September 2023 - Present

- Boosted annual concert ticket sales by 10% by designing and implementing an intuitive online ticketing system
- Created a user-friendly, community-driven website that streamlines communication and registration for members and newcomers
- Partnered with leadership to improve user experience, prioritizing accessible and inclusive design across MCS's diverse age demographics

President of Literary Magazine

Atlantic Cape Community College | September 2020 - April 2021

- Directed the creative production of ACCC's award-winning literary magazine from concept to print using InDesign
- Designed layouts and visual compositions in Adobe InDesign
- Liaised with the publishing company to maintain quality and production standards

Program Designer

Atlantic County Institute of Technology | September 2018 - May 2019

- Led the design and layout of program booklets for ACIT's Annual Fashion Show, coordinating input from students and Administrative staff

Projects

UI/UX Media Platform Designer | Jamr

Freemium to Premium Case Study | August 2025 - November 2025

- Designed and prototyped new flows for a social music app that supports real-time group listening and engagement
- Analyzed existing frames to build a revenue strategy through a tiered freemium-to-premium system focused on boosting user conversion.
- Applied usability testing insights to refine IA, interaction patterns, and upgrade flows

UI/UX E-Commerce Designer | House2Home

AI & AR E-commerce App Design Sprint | July 2025 - August 2025

- Executed a 5-day GV Design Sprint to design an AI/AR-powered interior décor app for room scanning, product visualization, and in-app purchasing
- Developed AR visualization flows and recommendation system UX to improve user confidence in purchase decisions

UI/UX Designer | CareerAble

Job Accessibility Case Study | September 2023 - July 2025

- Created a career development platform empowering people with disabilities through community networking, curated resources, and job discovery tools
- Designed an advanced accessibility system to increase usability, reduce cognitive load, and improve user confidence throughout the job search process
- Delivered end-to-end design artifacts—from research and storyboards to prototypes and web-compliant accessibility specifications

Education
